Human Computer Interaction Labs 4th Year **2026/2027**

Lab 2 Appendix (A) Semester: S7

Introduction to Human Computer Interaction: Design Rules Appendix (A)

ATM Design Examples

This appendix, related to *Activity 1* presents a collection of ATM interface and hardware design screenshots. The goal is to illustrate how different design choices, such as button placement, screen layout, and feedback mechanisms, **can influence the UX**. By comparing these examples, we can reflect on how the design rules **(Consistency, Visibility, Feedback, and Affordance & Constraints)** apply in real-world systems.
