

Mobile Development Structuring Group Project

LAB 9/W11

3ND YEAR - ENSIA

IMPORTANT

- To help students with their Midterm Mark, this is a marked Lab.
- If you are found to use any LLM (including copilote) inside the lab and you are warned three times, expect **zero mark for your CC**.

OBJECTIVES

- Give the students a chance to work on an existing app to add additional features.

INDIVIDUAL EXERCISES

Task / Exercise C0 (Download and Run) [30 minutes + 15 minutes discussion]:

Download the following project, run them and explore their code, architecture and technologies :

https://drive.google.com/file/d/1Kgvg8HDyYkTwGwwy2aFm1kz42WbuWPJY/view?usp=classroom_web&authuser=0

Marked Task / Exercise C1 [Strictly 90 minutes]: [2.5 points added to the Midterm Exercise (2.5/20 for the full CC)]

For the project that you have downloaded in C0, add the following feature :

- Modify the profile screen to add an extra field : notes (Text). Store the profiles inside a database.

Marking Schema : Whoever completes successfully the task given :

- 1st → 2.5 points
- 2nd → 2.25
- 3rd → 2
- 4th → 1.75
- 5th → 1.5
- 6th → 1.25
- 7th → 1.0
- 8th → 0.75
- 9th → 0.50
- 10th → 0.25

TEAM EXERCISES

Task / Exercise C2 (Progress on Project) [45 minutes]:

Students should progress on the following aspects of their projects:

- Structuring the project either by Technical (logic / data / presentation...) or by domain (sales / accounting / profile / ...)
- Integration of a local relational database
- Integration of Bloc (Not Provider, not Riverpod, not GetX)
- Creating their components.
- Implementation of the primary user stories.
- Minimal business logic including:
